

# ANJANA JOSEPH

React Native Developer | Mobile Application Developer

React Native Developer with 5+ years of experience in Mobile Application Development, specializing in cross-platform application development for iOS and Android platforms. Skilled in mobile UI development with strong knowledge of Agile methodologies, application performance optimization, and scalable mobile solutions.

## PROFESSIONAL EXPERIENCE

### Tata Consultancy Services

Systems Engineer | React Native Developer

Jan 2023 – Present

- Developed and enhanced React Native features for the Best Buy mobile application, focusing on Product Listing Page (PLP) and Product Detail Page (PDP).
- Collaborated with designers, developers, and product managers to improve user experience and app performance.
- Implemented Test-Driven Development (TDD), unit testing, and integration testing for reliable and scalable applications.
- Optimized product filtering, content presentation, and performance in PLP redesign initiatives.
- Configured feature flags for dynamic feature management and gradual rollouts.
- Integrated analytics to monitor user behavior and application performance.
- Participated in Agile ceremonies including sprint planning, stand-ups, retrospectives, and code reviews.
- Resolved performance bottlenecks, bugs, and maintainability issues while improving code quality metrics.

### Key Projects:

- Best Buy – Consumer e-commerce mobile application developed using React Native. [App Store](#)

### Ashtel Design Agency Pvt Ltd

Mobile Application Developer | React Native

Apr 2021 – Oct 2022

- Developed cross-platform React Native applications for iOS, Android, and iPad devices.
- Utilized Redux, React Navigation, and UI libraries for scalable application architecture and seamless navigation.
- Implemented push notifications, authentication, QR code scanning, and location-based services.
- Published and maintained applications on Play Store and App Store platforms.
- Collaborated closely with clients and stakeholders to gather requirements and prioritize feature enhancements.
- Performed bug fixing, maintenance, and performance optimization for multiple business applications.
